Analytics & SEO	Google Analytics, Lighthouse, Core Web Vitals, Search Console, Technical SEO
Operating Systems	macOS, Windows, Linux, iOS

Professional Experience

Freelance Web Designer, Developer & Consultant | September 2016 – Present

- Owned and led the end-to-end delivery of bespoke websites and digital products for SMEs, agencies and independent clients, acting as the primary technical consultant to translate business objectives into scalable solutions - from discovery, requirements gathering and technical planning through UI/UX design, development, testing, deployment and ongoing optimisation.
- Designed and developed custom WordPress websites, Shopify storefronts, headless applications and API-driven solutions, selecting appropriate technologies based on project complexity, performance requirements and long-term maintainability.
- Design responsive, user-centred interfaces in Figma and translate approved designs into production-ready experiences using PHP, JavaScript, HTML, SCSS, ACF, Gutenberg and modern frontend development practices.
- Engineered bespoke WordPress themes, templates, reusable components, plugins and third-party integrations, extending CMS functionality and streamlining content management workflows.
- Managed technical delivery across the product lifecycle, including hosting configuration, domain management, website migrations, quality assurance, troubleshooting, production releases and post-launch maintenance.
- Conducted technical audits and implement improvements across Core Web Vitals, SEO, accessibility, security and responsive usability, enhancing website performance, reliability and overall user experience.
- Owned client relationships and commercial project operations, including consultations, scoping, quotations, invoicing, stakeholder communications and expectation management, while coordinating with other freelancers and external specialists where required.
- Provided ongoing technical consultancy, CMS guidance and post-launch support, advising clients on digital strategy, platform improvements and future development opportunities to maximise the long-term value of their websites.

WordPress Developer – Ohme EV | August 2024 – November 2025

- Owned multi-region, multi-lingual WordPress development and optimisation on WPEngine, improving uptime, scalability, and performance for international markets, whilst making it easier for stakeholders across varying markets to create and maintain content through custom solutions developed for the CMS platform.
- Developed, maintained and futureproofed a custom Help Centre platform enabling partner teams to self-manage content, reducing internal support tickets by a large margin and improving documentation consistency.
- Developed, maintained and upscaled Custom Gutenberg blocks and page templates with ACF Pro in response to stakeholder requests to extend the functionality of the existing site.
- Collaborated with stakeholders during regular team meetings to provide updates on website developments and gather feedback.
- Integrated Ninja Forms with Odoo and collaborated with Data teams to streamline workflows and improve lead capture accuracy.
- Standardised request handling via Jira-based cross-department workflow, improving clarity and turnaround times for ad-hoc requests.
- Utilised AI tools such as ChatGPT, Cursor and CoPilot to aid development and code optimisation to reduce churn thus improving quality and performance.

WordPress Developer – ONQOR | May 2023 – August 2024

- Built and delivered pixel-perfect WordPress builds from Figma with ACF Pro, maintaining brand consistency and optimised Lighthouse performance scores on behalf of a B-Corp Creative Agency.
- Maintained and assisted with the upkeep of ONQOR's Headless WordPress Website with Strapi.

- Closely worked with the dedicated design team to gain further insight into Web Design through training sessions.
- Self-taught and built custom Vue.js and Nuxt.js applications during quiet business periods to enhance my skillset as a developer.
- Performed debugging, optimisation, and refactoring efforts for legacy builds, reducing client-reported issues.
- Completed self-directed projects to upskill in modern frameworks and full-stack development during quiet business periods with StrapiNuxt.js

Help Desk Web Developer – Ignite Hospitality | June 2022 – April 2023

- Delivered fast-turnaround WordPress support for 10+ hospitality clients, from minor UI fixes to full template redesigns using Zoho Desk. All tasks were resolved in order of priority.
- Built promotional landing pages for clients at their request.
- Used Gulp and Node.js for automated asset optimisation and workflow improvements.
- Provided technical enhancements for SEO, performance, and accessibility improvements.
- Closely collaborated with Project Managers to streamline ticket handling, reducing resolution times.

Front-End Developer – Civica Election Services | July 2021 – June 2022

- Developed and maintained secure, accessible front-end interfaces for public-sector clients to their specification.
- Collaborated with Project Managers and dedicated Proofing Teams to deliver client sites on schedule.

Website Co-Ordinator – Progeny Wealth | October 2020 – May 2021

- Developed and managed updates for the organization's corporate WordPress platform and assisted with full branding refresh across digital assets.
- Designed and built HubSpot marketing newsletters and landing pages.
- Supported marketing with on-brand content updates and light design work, including producing design mock-ups on Adobe XD and providing voiceovers for insightful explainer videos for use across their Social Media platforms.

Junior Web Developer – Black Spark Media | March 2018 – October 2020

- Owned a portfolio of 3–4 high-traffic gaming websites, improving speed, stability, SEO, and UX; designed HubSpot marketing newsletters and landing pages.
- Key contributor to the launch of the 'Lazerlight Bingo' brand, from planning and design alignment to front-end development and post-launch optimisation.
- Modernised front-end stack by migrating Bootstrap 3 to 4 and implementing scalable, maintainable component structures.
- Delivered high-conversion promotional landing pages in collaboration with the lead designer, enhancing player acquisition and conversions.
- Increased team efficiency via reusable front-end patterns, documentation, and workflow improvements.
- Upskilled through advanced JavaScript training, applying modern techniques to enhance interactivity and performance.

Earlier Roles, Voluntary Work & Apprenticeships | 2014 – 2017*

IT & Web Lead – Project: Empower | December 2018 – December 2022
Web Developer Apprentice – FX Digital | April 2016 – April 2017
Web Apprentice – Blighty Group | August 2014 – September 2014
*Additional information regarding these positions can be provided upon request.

Additional Non-Industry Experience

Event Steward – Tottenham Hotspur | May 2026 - Present

Supported major Football, Concerts and NFL events inside Tottenham Hotspur Stadium, mainly working on the Disability Access Team, giving personalised, special support to those with cognitive and mobility impairments.

Customer Engagement Team Supervisor at Wembley Stadium – The FA | August 2015 – Present

Delivered exceptional guest experiences at Wembley Stadium, providing guidance, accessibility assistance, and support for premium members in Club Wembley. Promoted to Supervisor in May 2021, coordinating shifts, managing workflows, and ensuring smooth operations during high-profile events while maintaining a professional and approachable presence.

Event Steward – Security Man Limited | March 2017 – July 2018

Supported major public events across London, managing crowd safety, traffic, and event operations. Engaged directly with attendees, communicated instructions clearly, and ensured compliance with security protocols in fast-paced, high-pressure environments.

Brand Ambassador – StreetPR UK Limited | August 2015 – September 2018

Represented multiple brands at corporate and hospitality events, delivering front-of-house support and guest engagement. Adapted to diverse client needs and event environments, consistently upholding a professional and approachable standard.
